REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance: none of the prior art of the record discloses a communications device and method for performing data communication within a network configured by a plurality of devices, the communications device comprising: a data communication controlling section for controlling data communications between the other device and the data processing section, disabling, upon detection by the synchronization detecting section of the loss of synchronization, at least one of a data input from the other device to the data processing section or data output from the data processing section to the other device, and then enabling again the disable data input or data output; and a connection processing section for performing, when the data communications controlling section again enables the data input or the data output, a connecting process for enabling data communications with other device as recited in claims 1 and 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Horiguchi (U.S. Pat. 5,737,329) discloses a spread spectrum communication system.

Balachandran et al (U.S. Pat. 6,014,548) disclose method and apparatus for facilitating detection of a synchronization signal generated by a satellite communication network.

Taki et al (U.S. Pat. 6,222,892) disclose a synchronization message reception processing apparatus.
